

The New 464 Area Code is Coming to the Illinois 708 Area Code Region

To ensure a continuing supply of telephone numbers, the [Illinois Commerce Commission](#) has approved an all-services overlay for the 708 area code. The 708 area code serves most of western and southern Cook County and eastern and southern Will County, including cities and communities such as Alsip, Beecher, Bellwood, Berwyn, Blue Island, Bridgeview, Broadview, Burbank, Calumet City, Chicago Heights, Chicago Ridge, Country Club Hills, Crest Hill, Crete, Dolton, Elmwood Park, Evergreen Park, Flossmoor, Forest Park, Glenwood, Harvey, Harwood Heights, Hazel Crest, Hickory Hills, Homewood, Justice, La Grange, Lansing, Lyons, Markham, Matteson, Maywood, Melrose Park, Midlothian, Mokena, Norridge, Northlake, Oak Forest, Oak Lawn, Oak Park, Orland Park, Palos Hills, Palos Park, Park Forest, Richton Park, River Forest, River Grove, Riverdale, South Holland, Steger, Tinley Park, Westchester, Western Springs and Worth. The new 464 NPA will serve the same geographic area currently served by the 708 area code.

What is an Area Code Overlay?

An overlay is the addition of another area code (464) to the same geographic region as an existing area code (708). The overlay does not require you to change your existing area code or phone number, or how you dial your calls. You will continue to dial 1+ the area code and phone number for all local calls, as you do today, within and between the 708 and 464 area codes.

Who is affected and when does the new 464 area code become effective?

Beginning **January 21, 2022**, customers in the 708 area code region may be assigned a number in the new 464 area code when they request new service or an additional line. Customers receiving a 464 area code will be required to dial 1+ the area code and phone number for all local calls, just as customers with telephone numbers from the 708 area code do today.

What will you need to do?

Customers in the overlay region should:

- Continue to dial 1+10 digits for all local calls, including calls within the same area code.
- Continue to identify your telephone number as a 10-digit number, and include the area code when giving the number to friends, family, business associates, customers, etc.
- Ensure that all services, automatic dialing equipment, or other types of equipment recognize the new 464 area code as a valid area code and continue to store or program telephone numbers as 10-digit numbers. Some examples are: stored telephone numbers in contact lists in wireless phones, PBXs, fax machines, Internet dial-up numbers, speed dialers, call forwarding settings, voicemail services, medical alert devices, safety alarm security systems and gates, ankle monitors and or other similar equipment.
- Check items such as your website, personal and business stationery and printed checks, advertising materials, contact information, and your personal or pet ID tags to ensure the area code is included.

What will remain the same?

- Your telephone number, including current area code, will not change.
- The price of a call, coverage area, or other rates and services will not change due to the overlay.
- What is a local call now will remain a local call.
- You will continue to dial 1+10 digits for local calls within and between the overlay area codes, and 1+10 digits for long distance calls.
- You can still dial just three digits to reach 911, as well as 211, 311, 411, 511, 611, 711 or 811 if those are currently available in your community.

Who may you contact with questions?
